

## Equalities Panel Report 2016

Over the course of the last year, there have been several changes to the membership of the equalities panel. As part of our discussions, we have recognised the requirement of training for members in all aspects of the Equality act 2010. As part of this, we hope to open up the training to district secretaries.

Over the last year, our members have met with staff from Stonewall Scotland, attended a training event run by LGBT youth and a conference on religious observance in Scottish schools.

It is our intention to provide links on the SSTA website to the Equalities act and to provide an advice note for all members.

We wish to thank all members who have left the panel for their work.
